Election/Restrictions

Applicant's election without traverse of Group I directed to claims 5-7 in the reply filed on 10/11/06 is acknowledged.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Johnathan R. Bowser (Reg. No. 54,574) on 12/1/06. This examiner's amendment was done to overcome a 112-2nd paragraph – lack of antecedent basis problem.

The application has been amended as follows:

In claim 5, line 3, the term "writing data input" has been changed to ---writing input data---.
Non-elected claims 8-9 have been cancelled.

The following is an examiner's statement of reasons for allowance:

With regards to claim 5, the prior art alone or in combination fail to teach or fairly suggest wherein when the first status signal received by the output data effective signal generator indicates that the external FIFO can write data therein, said output data effective signal generator is operable to output input data to the external FIFO circuit directly without passing through the internal FIFO circuit, and cause the external FIFO circuit to perform a writing operation of writing the input data into the external FIFO circuit, in combination with the other elements of the claim.

Art Unit: 2181

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
